Objective

To obtain a position of Junior Front-end Developer where I can apply my skills and gain further experience while enhancing the company's productivity and reputation.

Technical Skills

- Proficiency in HTML5, CSS3, SASS/SCSS.
 - General knowledge of JavaScript, jQuery, JavaScript templating.
 - Basic understanding of BEM methodology, XML and JSON formats, AJAX techniques, Bootstrap and PURE frameworks.
 - Hands-on experience in PSD to HTML conversion, media queries, responsive design, cross-browser layout, pixel perfect implementation of the design in HTML.
 - Sound knowledge of graphical editors.
 - Detailed familiarity with GIT version control system and GitHub service.
-

Language Skills

- English – fluent;
 - French – basic;
 - Russian, Ukrainian – native.
-

Soft Skills

During my 10+ years of freelance translation and teaching experience, I've developed strong problem solving, teamwork, and conflict management skills. I have strong analytical skills, ability to quickly learn new technologies, and expertise in planning and organization with attention to details. My background, dedication and adaptability make me a reliable, responsible and effective team player.
